

## OUR SERVICES

### FIRE INVESTIGATION

Fire investigator gathers and analyzes evidence to determine the origin and cause of a fire or explosion.

### FORENSIC ENGINEERING

Engineer investigates electrical aspects of structures, appliances, and components to determine the cause of the failure.

### DIGITAL & DATA FORENSICS

Investigator extracts and summarizes data from mobile devices, hard drives and other digital media.

### STORAGE & LABORATORY

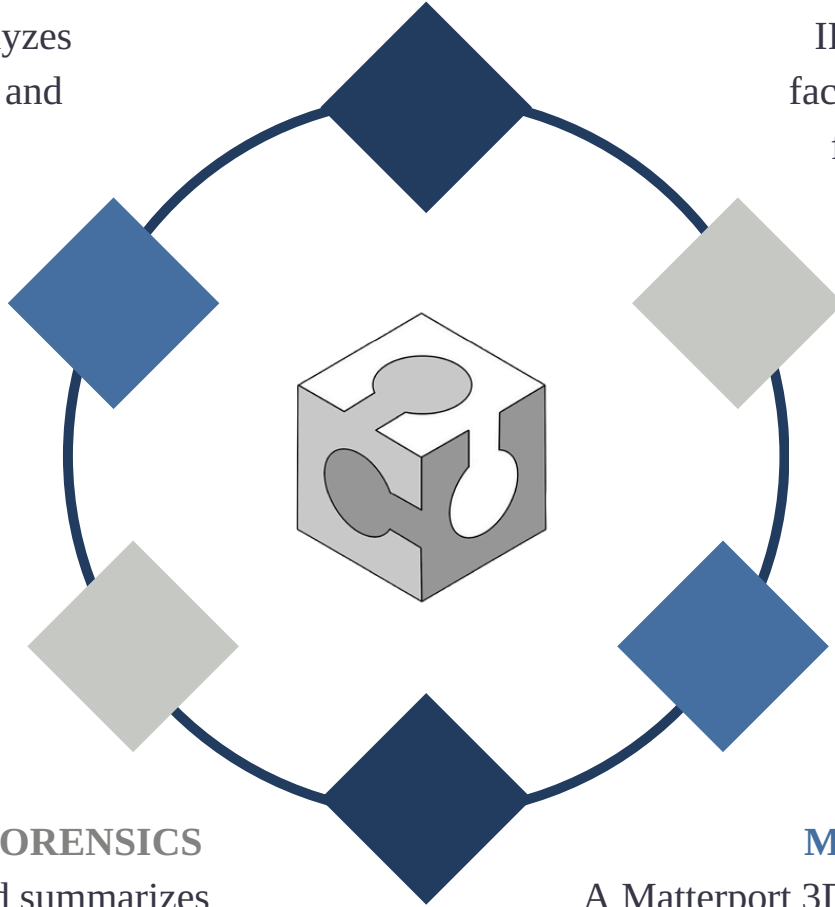

IFIC stores artifacts in secure storage facilities. We lead joint lab exams in our facilities. The labs are available for supervised rental.

### DRONE

FAA Licensed drone operators document the scene from the sky, providing unique perspectives. This cost-effective option allows the operator to safely examine hazardous and hard to access areas.

### MATTERPORT

A Matterport 3D digital twin is a state-of-the-art detailed 3D scan of a structure or room that documents the scene on the scan date.

## OUR PEOPLE

### Fire Investigators

Kelly LaFollette    Mark Sloup  
Ken Scurto        Bret Desh  
Cory Benge        Kent Grier  
Bryce LaFollette

### Forensic Data Investigator

Ian LaFollette

### Investigator

Roseanne Scurto

### Engineers

Gary Hong  
Ghattas Bitar
